ABOUT US

We are a dynamic and fast-developing Polish company that sells windows and doors to B2B and B2C customers in Ireland and other major global markets.

Our company policy is clear: we want to popularise the joinery from Poland and make the purchase process as easy and satisfying as possible.

We cooperate only with the best manufacturers and brands to offer high-quality and proven products known for their functionality and top aesthetics.

PRICE LIST

We have prepared this Price List to help you search and compare products from the Fenbro offer.

Remember that the **prices shown** in the Price List are for **standard white, double-glazed and/or triple-glazed** products and do not include changes in colours, accessories, dimensions, etc. Each change affects the final price of the product. **The presented price offer is for information purposes only.** If you want to know the detailed quote on your individual order, please contact our Sales Team. We will get back to you with the final price that is tailored to your specific needs – free of charge!

SLIDING DOORS

UPVC SLIDING DOORS

uPVC sliding doors are a cost-effective solution for balconies, verandas, terraces, or patios. They provide an amazing view of the exterior and an aesthetic appeal to your home. uPVC sliding doors offer very good thermal insulation properties and low maintenance. Besides, they are long lasting, weather resistant and eco-friendly.

All uPVC sliding door systems at FENBRO have a full 5-year warranty. The products are CE certified and their transport is organised by us and fully insured.

WINDOWS

UPVC WINDOWS

uPVC (Unplasticized Polyvinyl Chloride) is the most popular material for window frames. uPVC house windows are an ideal solution to keep your home energy-efficient. They are characterised by very good insulation parameters (U-Value), good soundproof and waterproof properties and reasonable prices. The uPVC frames are also durable and easy to maintain.

All uPVC windows at FENBRO have 5 years of warranty. The products are CE certified and their transport is organised by us and fully insured.

ALUMINIUM WINDOWS

Aluminium windows will complement every safe and energy-efficient building. Aluminium windows frames are highly durable and robust which allows for having a larger glass surface area. They are scratch and weather resistant and offer modern, contemporary aesthetics. Premium aluminium window models come with impressive thermal efficiency, highly increased by the choice of a properly warm triple-glazing unit.

All aluminium windows in the FENBRO offer are covered by a 5-year warranty. The products are CE certified and their transport is fully insured.

EXTERNAL DOORS

COMPOSITE DOORS

Steel composite doors are made of one of the strongest door materials, offering safety, energy efficiency, and durability. They are practically completely resistant to elements and weather conditions, providing outstanding thermal insulation, reducing energy consumption and lowering energy bills. Steel composite doors available at Fenbro come in the following lines: Alu Hybrid, Termo Prestige Lux, Optimum Termo and Premium Termo. They differ, among others, in: leaf thickness, level of thermal and acoustic insulation, anti-burglary class and fire protection.

All steel composite doors at Fenbro are covered by a 5-year warranty. The products are CE certified and their transport is fully insured.
