NAJWYŻSZA
ENERGOOSZCZĘDNOŚĆ

ALU HYBRID

Ud from 0.54 ^{W/m²K}

Thermal insulation

Flush-Fitting, Rebated-Free ALU HYBRID Doors: this technology makes it possible to create doors that are perfectly flush on both sides. The leaf, built from two aluminum panels, delivers a product of the highest class.

Termo Prestige Lux

Ud from 0.79 ^{W/m²K}

Thermal insulation

An advanced line of exterior doors designed for highly demanding customers. Outstanding technical performance ensures excellent thermal and acoustic insulation properties.

Optimum Termo

Ud from 0,82 ^{W/m²K}

Thermal insulation

An optimal line of exterior doors designed for demanding customers. A wide range of visual and technical solutions combined with an excellent price-to-quality ratio.

Prima Termo

NOWOŚĆ!

Ud from 0.87 ^{W/m²K}

Thermal insulation

A modern take on exterior doors, offering even better performance. The upgraded construction provides enhanced thermal insulation.

Plus+

Ud from 0,88 ^{W/m²K}

Thermal insulation

A new technological line of doors, based on an aluminum-wooden frame and a 64 mm thick leaf with excellent thermal transmittance, offers an enhanced standard of equipment.

BASIC^{3.0}

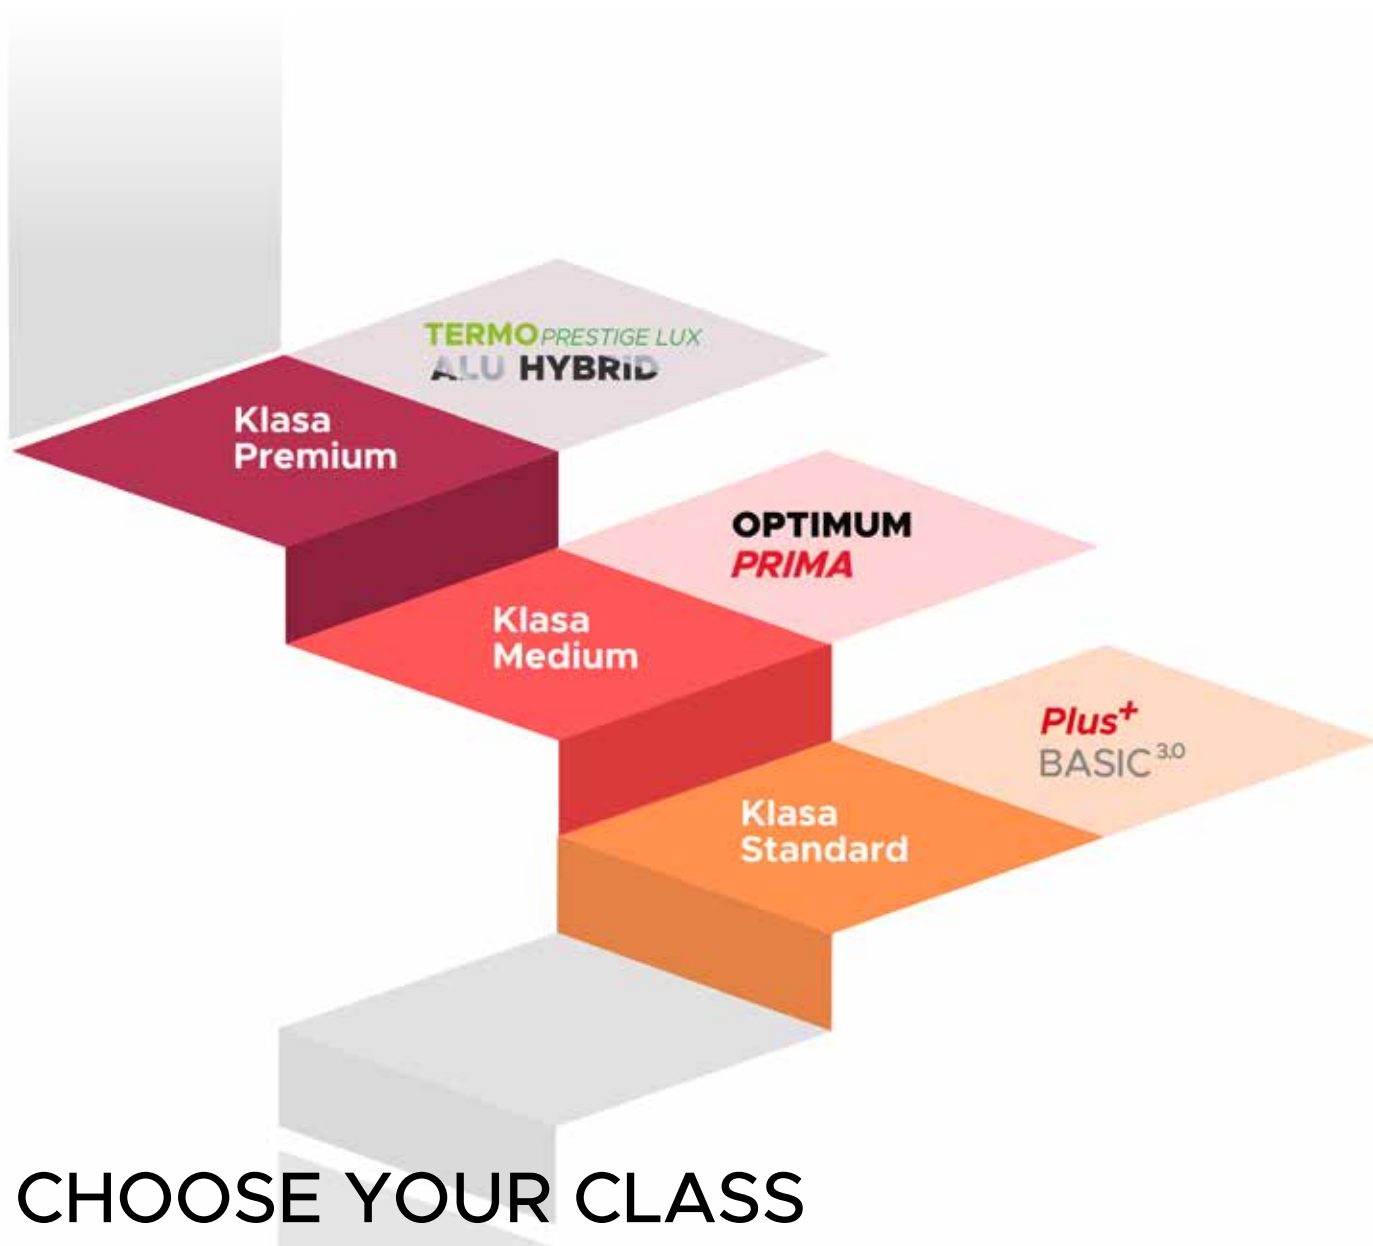

Ud from 1.2 ^{W/m²K}

Thermal insulation

The BASIC door line, built on a thermally efficient wood-steel frame with a 64 mm leaf filled with EPS foam, meets the requirements of the "Clean Air" program.

CHOOSE THE DOOR CLASS THAT FITS YOUR NEEDS

Our offer is divided into three door classes to make it easier for you to find the perfect model. Whether you're looking for an economical, ready-to-go solution or advanced technology and top quality – we've got something for you!

CHOOSE YOUR CLASS AND ENJOY COMFORT FOR YEARS TO COME!

Premium Class – modern technologies and luxurious craftsmanship

1. Top energy efficiency standard
2. Smart, intelligent solutions
3. Premium-quality materials
4. Global technologies and innovative features

Medium Class – full freedom of configuration

1. High energy efficiency standard
2. Customizable colors, designs, and features
3. Made-to-measure doors
4. The perfect balance of functionality and design

Standard Class – proven models at the best price

1. Good energy efficiency standard
2. Fast availability
3. Attractive price
4. Most popular designs: 1, 12, 26c, 42

INTRODUCTION

WIKĘD is a Polish manufacturer of windows and exterior doors for houses and apartments. More than 500 people are currently employed at its factory located in Luzino, in the Pomeranian region.

The brand was founded in 2002 and has been continuously improving its products for over two decades.

WIKĘD holds a leading position in the exterior door market in Poland, receiving numerous titles and awards in industry rankings.

MASTER LINE

The **Master Line** collection combines raw simplicity with striking aesthetics. Its distinctive vertical slats, inspired by wood, add a sense of dynamism and harmonize beautifully with the matte black finish of the doors. Subtle details and unique patterns give them a one-of-a-kind character, perfectly highlighting the individual style of any home. It's a stylish choice for demanding lovers of modern architecture.

WoodLine

The Wood Line collection is a perfect choice for lovers of natural style in home architecture. The doors in this line impress with panels inspired by wooden boards, giving the entrance a rustic yet elegant character. Their distinctive design harmonizes beautifully with the matte black base, creating a striking contrast. A carefully selected color palette allows for a perfect match to the style of the house, making the entrance both welcoming and representative.

SOFT LINE COLLECTION

The Soft Line door collection is the essence of elegance and subtlety. Its modern, perfectly cohesive form has been achieved by eliminating glazing beads around the glass panels.

The minimalist models in this collection are available in a lacquered finish, in one of the colors from the Top Trends Color, Crystal Sky Color, or the full RAL palette.

A very wide range of shades makes it easy to perfectly match the doors to the individual style of any homeowner.

LINE

GLASS DESIGN

COLLECTION

The **GLASS DESIGN** exterior door collection is an exceptionally appealing proposal of modern, refined design. What sets this line apart is the outstanding attention to every detail. The glass and the door leaf form a single, flush surface, both on the outside and inside of the home.

ZOBACZ DETAL

FROM THE OUTSIDE

FROM THE INSIDE

GLASS
DESIGN

The Black glazing in the Glass Design door collection offers a very strong reflective effect. In the presented doors, full-height glass has been used, creating this unique visual impression.

The prices shown are net prices.

The doors from the 3D design collection catch the eye and emphasize the modern character of the home.

This extraordinary door collection is based on three-dimensional patterns that add depth and dynamism. These designs are created by combining two layers of sheet metal across the entire surface of the door, producing striking spatial effects. The sense of depth is further enhanced by pairing contrasting colors from our rich palette, creating a highly impressive look. The 3D design collection offers doors with a unique style, inspired by the latest architectural trends and distinguished by their originality.

BETA VISION

The exceptional variety of classic WIKĘD exterior doors offers virtually unlimited possibilities for selection and customization. Create the perfect solution for yourself using our configurator available at www.wiked.pl

A photograph of a modern interior space. On the left, there is a wall made of vertical wood slats. In the foreground, there is a concrete step or platform. The background is a plain, light-colored wall. The lighting is soft and even.

Classic design

COLLECTION

Classic doors can be divided into two types: the first, represented by the lower numbering in the collection, is perfectly suited for traditional architecture, where elegance and timeless style are valued. The second type is characterized by simple forms – doors designed for enthusiasts of a clean, modern, and functional style.

MODEL 3D04 / BETA BLACK PULL HANDLE / FRAME COLOR: BLACK MATT / DOOR LEAF COLOR: CRYSTAL SKY
MAGNOLIA BLOSSOM

DOOR STRUCTURE AND TECHNOLOGY

ALU HYBRID

The flush, rebated-free ALU HYBRID doors combine two proven WIKĘD technologies – a durable, thermally efficient, and slim aluminum frame, and an ultra-strong fiberglass composite with a carbon coating, delivering excellent thermal and structural performance as the core of the door leaf. This technology makes it possible to create doors that are flush on both sides, with the leaf constructed from two aluminum panels, resulting in a top-class product.

Thermal insulation
 $U_d=0,54 \text{ W/m}^2\text{K}^*$

86 mm
Door leaf
thickness

Acoustic insulation
30dB*

Burglary resistance
class RC2**

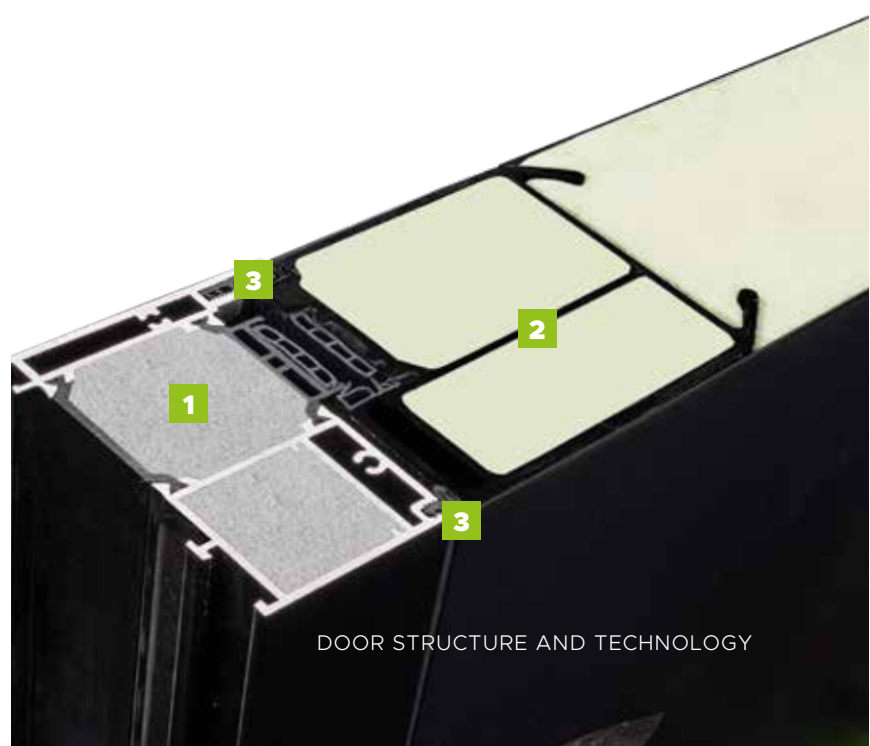

* Applies to doors without glazing

**According to PN-EN 1627:2011. Applies to solid doors as well as glazed doors (P4) with an INOX frame (selected models), equipped with a class C handle and a class C cylinder.

DOOR STRUCTURE

- 1 - Warm ALU HYBRID frame with XPS insert for improved thermal performance.
- 2 - Door leaf made of fiberglass composite with a carbon structure, filled with polyurethane foam and a composite stile.
- 3 - Flush door leaf on both sides.
- 4 - Door leaf with perimeter sealing and an additional masking gasket.
- 5 - Three 3D hinges adjustable in three planes.
- 6 - Multipoint lock with 8 locking points (hook bolts).
- 7 - Top and bottom locking controlled centrally by the main lock.
- 8 - Strike plate running the full height of the frame.
- 9 - LAVA handle.
- 10 - Anti-burglary knob-cylinder or double-sided cylinder.
- 11 - Minimalist ring escutcheon (optional for doors with a pull handle).
- 12 - Warm PVC/ALU threshold with thermal break.

TERMO PRESTIGE LUX

An advanced line of exterior doors designed for highly demanding customers. A wide choice of design configurations and equipment, combined with excellent technical performance, ensures outstanding thermal and acoustic insulation.

* Applies to doors without glazing

**According to PN-EN 1627:2011. Applies to solid doors as well as glazed doors (P4) with an INOX frame (selected models), equipped with a class C handle and a class C cylinder.

DOOR STRUCTURE

- Warm TERMO Prestige frame with two gaskets and thermal insulation inserts in each chamber. **1**
- Door leaf with gasket, filled with polyurethane foam and laminated wood stile.
- Three 3D hinges adjustable in three planes.
- Three latches with adjustable pressure.
- Six anti-pry bolts.
- Top locking operated by key with an additional upper latch.
- Knob-cylinder or double-sided cylinder.
- Multipoint lock with main lock and central latch.
- Prime, Tahoma, Manitoba or Magnus handle.
- Bottom locking operated by key with an additional lower latch.
- Door leaf with 4-sided rebate.
- Automatically dropping gasket.
- Windstopper (eliminates possible drafts at the threshold area).
- Warm PVC/ALU threshold with thermal break. **4**

OPTIMUM Termo

An optimal line of exterior doors designed for demanding customers. A wide range of visual and technical solutions combined with an excellent price-to-quality ratio.

DOORS MADE TO MEASURE

For models:

01, 12, 12c, 25, 25a, 25c, 26, 26c, 26d, 26i, 30, 30a, 30b, 37, 42

DOOR STRUCTURE

- Warm TERMO frame.
- Door leaf with gasket, filled with polyurethane foam and laminated timber stiles.
- Three 3D hinges adjustable in three planes.
- Three latches with adjustable pressure.
- Adjustable latch.
- Three anti-pry bolts.
- Upper locking (hook bolt).
- Additional upper lock with knob-cylinder (single key system).
- Multipoint lock with main lock and cylinder (single key system).
- Prime, Tahoma, Manitoba or Magnus handle.
- Lower locking (hook bolt).
- Door leaf with 4-sided rebate.
- Windstoper (eliminates possible drafts at the threshold area).
- Warm threshold with slope.

PRIMA

The PRIMA line is a modern edition of doors that replace the former PREMIUM line, offering even better performance. The upgraded design features a thicker, 64 mm door leaf and a new, warmer Termo frame, which enhances thermal insulation. It sets a new standard tailored to the requirements of modern construction.

Izolacyjność termiczna
Ud=0.87W W/m²K*

CE Marking

* Applies to doors without glazing
** According to PN-EN 1627:2011. Applies to solid doors as well as glazed doors (P4) with an INOX frame (selected models), equipped with a class C handle and a class C cylinder.

DOOR STRUCTURE

- Warm Termo frame with thermal break and gasket.
- Door leaf with 4-sided rebate and gasket, filled with polyurethane foam and laminated timber stile.
- Three hinges with 3D adjustment.
- Decorative hinge caps.
- Two latches with adjustable pressure.
- Main strike plate with latch adjustment.
- Three anti-pry bolts.
- Upper locking (hook).
- Multipoint lock with main lock and upper & lower locking (hook-bolt).
- Prime, Tahoma handle
- Warm sloped threshold with thermal break, replaceable.
- Windstoper (seal eliminating potential drafts in the threshold area).

Plus+

The new technology line is based on a warm aluminum-wood frame and a 64 mm thick leaf filled with polyurethane foam. Thanks to this combination, doors from this series achieve an excellent thermal transmittance parameter of 0.88 W/m²K. The doors come with an enhanced, rich standard of equipment, including: hako-bolt multi-point lock, warm threshold, modern handle available in Black and Inox, glazing package (for glazed models) in the top Dark Grey color with a black warm spacer bar.

- Tahoma Handle.
- Lower locking (hook-bolt).
- Door leaf with 4-sided rebate.
- Warm PVC/ALU threshold with thermal break. **4**

BASIC^{3.0}

The basic-class technology line is based on a warm wood-steel frame and a 64 mm thick leaf filled with expanded polystyrene (EPS). This combination ensures that the doors in this series meet the requirements of the "Clean Air" program. The standard equipment includes: main and additional 3-bolt locks, durable stainless steel threshold, modern handle available in two colors: Inox and Black, glazing unit (in glazed models) in the top Dark Grey color with a black warm spacer bar.

YOUR SMART DOORS

Imagine a house or apartment that you can open without keys.

With our WIKĘD SMART system, you can unlock the door using your phone from anywhere in the world. Manage door opening or LED lighting. Remotely disable the handle with a button, turning it into a virtual doorbell via the app.

- Remote access from anywhere in the world
- Door closure status
- Information on whether the door is locked or unlocked
- Remote door opening
- Remote LED lighting control
- Access via your smartphone (iOS/Android)
- Secure, encrypted remote connection
- Easy installation and use
- Remote on/off control of the button in the pull handle

BENEFITS OF DOORS SMART

- Using a smartphone from anywhere in the world (limited only by Internet access), we can control:
 - automatic locks,
 - LED threshold lighting,
 - LED sidelight illumination,
- We can disable the button in the handle by changing its function to a doorbell.
- We can check whether the door is closed or locked.
- We gain access control via a fingerprint reader, keypad, and RFID proximity reader.

SHINE MASTER

A professional set for comprehensive door care, providing long-lasting protection and an excellent appearance. The set includes Active Foam for effective cleaning, a Protector for surface protection, and Hardware Serum to ensure perfect functionality.

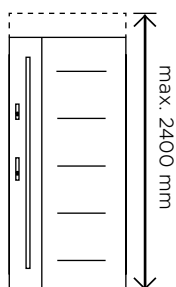

RING ESCUTCHEON

Available in INOX, BLACK, and GOLD. Only for Termo Prestige Lux and ALU HYBRID doors.

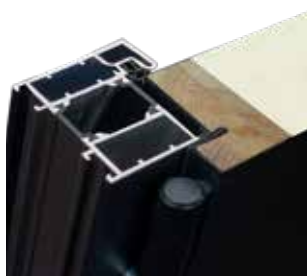

YALE NEW

A new, improved version compared to the previous model, featuring easier installation, a more discreet LED light ring, a smaller housing, new lock sounds, USB-C charging, a slimmer and more elegant lock profile, silver and matte black color options, and much more.

EXTENDED-HEIGHT DOORS

Maximum height including the frame (Hc) up to 2400 mm. Available only with the Termo frame or the aluminium-composite frame. Applies to single-leaf doors and doors with sidelights.

TERMO FRAME

Designed for lines: PRIMA Optimum

PET DOOR FOR CATS

Transparent, quiet-operating flap with a special seal and magnetic closure; features 4-way entry control. Made of weather-resistant plastic. Available colors: white, grey.

ALU TECHNOLOGY

Option available for selected classic designs with the Termo frame. Allows a steel door design to be made using aluminium technology. Not available in the colour-styling option.

24V POWER SUPPLY FOR ELECTRIC STRIKE

24V power supply mounted in a flush box. Required for the use of a handle with a button or an electric strike (connected to the power supply).

REED SWITCH

Colors: white, brown, anthracite

The price of the presented model is a net price.

CONNECTOR TERMO

A profile that can be easily connected to the Termo frame or Termo sidelights, enabling the elements to be joined at a 90° angle.

HOUSE NUMBERS

Made of stainless steel in INOX or Black finish. Height: 15 cm. The price includes a single digit or letter – supplied with high-strength double-sided adhesive tape.

STANDARD / PREMIUM DOOR VIEWER

Colours: gold, silver or black. Diameter ø 30/46 mm.

DOOR CLOSER

Door closer made of stainless steel. Available in silver or black.

LETTER SLOT

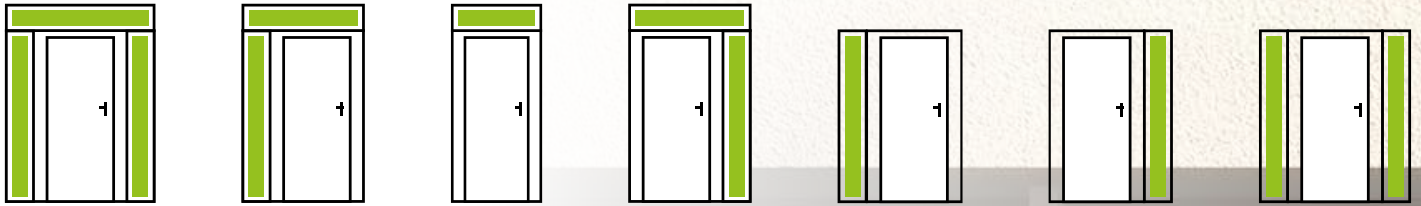

Color: INOX
Dimensions: 35x7,5 cm

DESIGN S1 / LAVA HANDLE / DOOR LEAF AND FRAME COLOUR CRYSTAL SKY COLOR SAVANA

Sidelight

Sidelights available only as a set with the TERMO frame. When using the TERMO frame, the sidelight can be combined with single-leaf doors, double-leaf doors, and fixed side panels. Made of the TERMO warm aluminium profile. Available in all colours. Each sidelight comes as standard with a triple-glass package.

TILT AND TURN SIDELIGHT

We also offer the option of a tilt-and-turn sidelight with a so-called hidden sash. From the outside it looks like a traditional fixed light, as the sash profiles remain invisible.

This solution combines an elegant, minimalist appearance with full functionality – the window can be tilted or opened wide, providing user comfort and improved air circulation.

NAŚWIETLE

XL

Our XL sidelights offer a wide range of sizes that bring more natural light into your interior while maintaining a modern design. Available in widths up to 1500 mm, they are equipped with a stabilizing static connector mounted on the inside, while preserving an impressive visual effect. An excellent option for those seeking a modern, loft-style look combined with safe solutions.

LED TECHNOLOGY IN DOORS

PULL HANDLE

The subtle LED light illuminating the handle is both highly practical and creates an impressive visual effect. Discover which accessories from our range come with lighting options.

SIDELIGHT

Our sidelights can be fitted with linear LED lighting matched to the door design. The subtle, horizontally arranged light installed beneath the glass surface adds a unique, individual touch to your home.

TRESHOLD

Subtle lighting integrated into the threshold makes the door even more beautiful and practical. Your door will look stunning even after dusk.

SIDELIGHT GLASS CORNER

For an even greater effect and more natural light, we offer the option of installing two sidelights at a right angle – the Glass Corner sidelight. This modern, designer solution maximizes interior illumination and visually enlarges the space. With Glass Corner technology, the corner glass joint is almost invisible, giving the construction a light and elegant appearance. It is the perfect choice for modern homes and buildings where both aesthetics and functionality matter. In addition, special thermal insulation properties ensure comfort even with large glazing.

1

STEP BY STEP – HOW TO BECOME THE OWNER OF WIKĘD DOORS? AND GET AN EXTRA 3 YEARS' WARRANTY!

We know that choosing the perfect door is an important decision. That's why we've prepared a short step-by-step guide to make the whole process a real pleasure!

Let's start with the fact that WIKĘD doors are not only a practical part of your home, but also an essential element of its style and character. That's why it's worth taking a moment to carefully consider which doors best match your taste and needs.

1

Get inspired

Find your dream door in the WIKĘD configurator or catalogue. Configure your door, place it on a photo of your house, and save the file with your designed door.

**Configurator
WIKĘD!**

2

Visit a Partner Showroom

Go to the WIKĘD website and open the 'Where to Buy?' section to select a showroom in your area. Visit the chosen sales point in person.

3

Ask for a sample book

Ask the salesperson to show you the sample books so you can see the colours, structure, and construction of the door in real life. Also inquire about other door elements that interest you.

4

Present your expectations

Talk to the Salesperson about your expectations regarding the door and present your project from the configurator – our Advisors will suggest the best solutions.

5

Place an order

If you have already chosen your dream door, simply place an order, which will then be forwarded to the WIKĘD door factory.

6

Wait for completion

Some of our doors are available in showrooms even immediately. More sophisticated, individual configurations require additional production time. Confirm the production lead time at the showroom. In the meantime, prepare your home for the new door.

7

Enjoy your new doors

Your new doors have already arrived at your home – make sure the installation has been carried out correctly and enjoy your new WIKĘD door!

8

WIKĘD ZONE

It's that simple. Scan the QR code from the nameplate or visit strefa.wiked.pl and enjoy your benefits.

Customer benefits:

- option to add proof of purchase so it won't get lost
- **quickly check the warranty expiry date**
- **access your warranty card**
- **if eligible, extend the warranty for an additional year**

Installer Benefits:

- access to installation videos and manuals

**3 LATA
GWARANCJI**

3

3 YEARS OF WARRANTY

If you have purchased WIKED external doors, extend the warranty period to 3 years.

Register your installed door using the QR code on the nameplate or do it via our website.

For more information, visit our website and professional showrooms.

DOORS MADE TO MEASURE

DOORS TAILORED TO YOUR NEEDS

Replacing your doors has never been easier. We present the Optimum Termo line – custom-made with your individual needs in mind. Our doors adapt to your home, not the other way around.

We offer a unique option of precise width adjustment – from 75 to 100 cm, with accuracy to 1 cm. This way, the doors will perfectly fit the opening left by the old ones, without the need for costly construction modifications.

This solution is particularly valuable for tenement houses and historic buildings under conservation protection, where preserving the original door opening dimensions is crucial.

DOORS MADE TO MEASURE are perfectly matched to the character and style of any home. In addition to a perfect width adjustment, they provide excellent thermal insulation, protecting against heat loss and ensuring comfort all year round.

**NO COMPROMISES – ORDER
DOORS TAILORED TO YOUR NEEDS**

WIKĘD DOUBLE-LEAF DOORS EVEN MORE POSSIBILITIES

New Optimum Termo Double Doors

The new double doors from the Optimum Termo line combine elegance with modern functionality, offering excellent sealing and resistance to external factors. They are the perfect solution for customers seeking a spacious, prestigious entrance to their home.

INDEKS WZORÓW MASTER LINE

The MasterLine collection combines raw simplicity with striking aesthetics. Distinctive vertical slats, reminiscent of wood, add dynamism and harmonize perfectly with the matte black finish of the door. Subtle details and unique patterns give them a distinctive character that easily highlights the individual style of any home. A stylish choice for demanding enthusiasts of modern architecture.

The decorative slats for the MasterLine door collection are made of high-quality 1.5 mm thick steel sheet. Each element undergoes a precise finishing process, including painting and laminating, ensuring a durable and elegant surface.

Slats dimensions:

Height: 2 mm
Width: 50 mm

The use of decorative slats gives the MasterLine doors an elegant, modern look, highlighting their distinctive character and complementing the stylish design line.

INDEKS WZORÓW WOOD LINE

The Wood Line collection is the perfect choice for lovers of natural style in home architecture. The doors in this line impress with panels inspired by wooden planks, giving the entrance a rustic yet elegant character. Their distinctive design blends harmoniously with the matte black base, creating a striking contrast. A carefully selected color palette allows the doors to perfectly match the style of the home, offering a welcoming and prestigious entrance.

The Wood Line decorative panels are made of 1 mm thick aluminium sheet. Each panel undergoes a two-stage finishing process – initial painting followed by precise laminating – ensuring outstanding durability and a refined surface appearance.

Panel dimensions:

Height: about 2 mm

Model 1, 2: width 147 mm

Model 3: width 147/156 mm (adjusted flexibly depending on technological conditions)

The panels in Design 3 feature variable widths, precisely adjusted to the overall aesthetics of the pattern, ensuring a harmonious finish and a consistent design.

A woman in a blue shirt and black skirt is pushing a white stroller with a cream-colored canopy through a garden of white flowers. In the background, a white house with a balcony and large windows is visible. The balcony has a black metal railing with decorative scrollwork. The house has a classic architectural style with horizontal siding and a prominent window on the ground floor.

2025 COLLECTION

This catalog contains confidential materials and information that are legally protected and is intended exclusively for WIKED Sp. z o.o. Business Partners. The prices included in this catalog serve as the basis for calculating the price of the Manufacturer's products and are dedicated solely to Business Partners in Poland. The prices represent the suggested resale prices in retail outlets within Poland. All prices shown in this catalog are expressed in Polish zlotys. The applicable VAT, in accordance with current regulations, must be added to the listed prices.

All orders based on this catalog are executed as custom-made orders tailored to the individual needs of Business Partners. The ordered products are manufactured according to a customized and agreed production process, including, among others, color schemes, dimensions, equipment, etc. The terminology such as "standard execution," "typical dimensions," and "standard equipment" has been introduced by the Manufacturer as a designation for the most popular and widely used specifications for a given product, in the Manufacturer's assessment, and serves as the Manufacturer's reference nomenclature.

Drawings and photos contained in the catalog are for illustrative purposes only. The Manufacturer reserves the right to introduce changes—without prior notice—resulting from technological or technical advancements, provided that such changes do not reduce the aesthetic or functional qualities of the products. This catalog does not constitute an offer within the meaning of the Civil Code.

All rights reserved. No part of this publication (including texts, graphics, logos, icons, tables, images, photos, drawings, etc.) may be reproduced or distributed in any form or by any means without the prior permission of the Manufacturer. All trademarks, graphic marks, proprietary names, logos, and other data are protected by copyright law and belong to the Manufacturer. The previous catalog dated 07.05.2024 is hereby rendered invalid.
